

Regional e-Notes ~ December 2018

Volume 10, Issue 12

Season's Greetings from CTSA

Aloha & Happy Holidays,

We here at CTSA wish you a joyous holiday season! As we reflect on the activities and accomplishments of the past year, I just want to once again express my gratitude to all of CTSA's stakeholders for your valuable contribution to our program.

2019 will be an exciting new chapter for CTSA as we continue the move into our new main office on the University of Hawaii Manoa campus. We appreciate the Oceanic Institute of Hawaii Pacific University for serving as our host institution for the last three decades; even though our primary daily services will now take place at our UH office, CTSA will retain a presence on the OI campus. Through this move, CTSA intends to do our best to not only continue but also improve upon the services we offer to the regional aquaculture industry.

For those interested in stopping by our office for a visit or sending us mail, the following is our new address:

Center for Tropical and Subtropical Aquaculture
c/o HNFAS, College of Tropical Agriculture and Human Resources
University of Hawaii at Manoa
1955 East West Road, Ag. Sci. 216
Honolulu, HI 96822

As always, we welcome your input on ways to improve our program and the services we provide to our valued stakeholders. Thank you for your continued partnership and support of our program. On a personal note, I hope that you are able to put work aside at this time of year to enjoy cherished time with your loved ones. This is, after all, what this season is all about!

Mahalo,

Cheng-Sheng Lee
Executive Director

Center for Tropical and Subtropical Aquaculture

Cheng-Sheng Lee, Meredith Brooks, Maggie Ma

www.ctsa.org

The Center for Tropical and Subtropical Aquaculture (CTSA) is one of five regional aquaculture centers in the United States established and funded by the U.S. Department of Agriculture's National Institute of Food and Agriculture (NIFA) under grants 2014-38500-22241 and 2016-38500-25751. The regional aquaculture centers integrate individual and institutional expertise and resources in support of commercial aquaculture development. CTSA was established in 1986 and is jointly administered by the Oceanic Institute of Hawaii Pacific University and the University of Hawaii.
